

Safe T Bar Inc. - Urinal Specialty Grab Bar

USA Manufactured and Packaged in Minnesota. STB grab bar products - Exceed ADA, ANSI and Federal Codes.

Material used in manufacturing the grab bar products is 304 stainless steel 18-8 chromium nickel. Tubing 18 gauge 1 1/2" OD, wall clearance is 1 1/2", include 304 stainless steel screws and individually boxed. Standard flange washer mountings are Exposed Mount, however Snap Mount Conceal and Anti Bacteria Safe T Ring Conceal are also available. All flange washer are 3" OD (outside diameter). See Mounting options for additional detail/specifications.

Tubing extends through the flange washer and is full fusion Tig (heliarc fused [Stronger] - not wire feed or filler) and welded to Military standards to form a single unit. The recessed (bossed); flanged washer keeps the weld away from installation to allow the grab bar to lay flat against the mounting surface. Flange Washer Mounting holes are true to ± 1/8".

Safe T Bar GRIP TIGHT™ NON- SLIP surface - ASSURANCE OF POSITIVE GRIPPING – It Grips you!

Safe T Bar Inc. features the exclusive “GRIP-TIGHT™” surface and is our standard finish. Grip Tight™ is permanently etched in the stainless steel bar, it's not an added material, effective against slipping when the user’s hands are wet and soapy. Grip Tights™ color originates from the mechanical process to the 304 stainless steel, the surface is easy to clean, will not peel or create bacteria.

Custom sizes and finishes; Custom Bar is any alterations to our standard sizes, finishes and types of grab bars. Inquire by Contacting Safe T Bar Inc. 1 - 800 -444 - 8855

Urinal Grab Bar is designed to support from both sides when standing. It has two U shape bars with a cross support.
